# UPHOLSTERY , CARPET, CURTAIN & CAR CLEANING AND SCOTCHGARD

## **Upholstery Cleaning and Scotchgard**

Different pieces of upholstery need different upholstery cleaning techniques depending on their fabric and level of soiling.

Based on where your sofas, couches and chairs are, the upholstery on them will see a certain amount of wear and tear. In addition to this, fabric always tends to gather dust and where there is dust; there will also be dust mites.

We are the cleaners who pay a lot of attention to detail and handle all the jobs in a very expert manner. All our personnel are highly experienced and skilled and can handle even the toughest cleaning jobs with ease and efficiency. Though all of this might sound simple, the job is a very specialized one and only trained professionals can handle it the right manner.

## **Carpet Cleaning and Scotchgard**

There are smeared food and drink stains on the carpet and you must have tried every trick in the book, to get them out- they might fade a bit, but are stubborn and never seem to vanish completely. It's like they taunt and challenge you to get rid of them

and you keep trying in vain. The one way to avoid all this stress and strain is to hire the services of **Advanced Methods Cleaning**.

# UPHOLSTERY , CARPET, CURTAIN & CAR CLEANING AND SCOTCHGARD

## **Curtain Cleaning**

**Advanced Methods Cleaning** not only clean but sanitize your curtains right where they are hanging! Yes we steam clean your curtains in your premises without removing them. Steam cleaning removes stains, dirt and soiled areas, kills dust mites, fungal spores and **99.9% of Bacteria.**

## **Car Cleaning and Scotchgard**

A clean car interior not only looks great, it is also better for your health and health of your passengers. Be careful with water inside the car; if water gets into electrical components, it may cause problems. Similarly, don't soak the seats too much and don't let water to get under the carpet; it could cause corrosion, stains and damp moldy smell.

Advance methods cleaning provides different kind of car cleaning methods and scotchgard service.

# GENERAL CLEANING

# GENERAL CLEANING

## External Window / Glass Cleaning

Shining windows are not only a reflection on your business but they are also a reflection on ours. For that reason we guarantee you 100% satisfaction with every single job.

There is no job too big or too small **Advanced Methods Cleaning** can handle everything from local gift shop to a retirement facility. We also provide the peace of mind that as licensed and insured window cleaners. We will be maintaining the appearance of our business.

## Move In / Out Cleaning

If you are Moving Out to your house, apartment, office or anything and you are on the end of your lease it is your responsibility as a Tenant to clean the property before you do so.

We will do the cleaning for you so you can concentrate on the more important things. To meet your expectations, **Advanced Methods Cleaning** team boasts of its highly specialized training in tidying all types of rooms or buildings, whether these are for dwelling, working, educational, recreational, or other purposes. **Advanced Methods Cleaning** high quality cleaning materials and equipment are just perfect in sanitizing and restoring order in rooms, houses, and other buildings vacated by leaving occupants – perfect in preparing the place.

# PEST CONTROL

## All Kind of Crawling Insects Control

### Cockroaches Control

Though cockroaches do not bite, they can contaminate the food and also have the potential to cause various illness and allergic reactions they are normally treated by spraying or gel method. If you are completely looking to get rid of this pest, then it is highly recommended to take suggestion and help from expert. Different insecticides are used rotationally if the situation demands for more effective eradication of cockroaches.

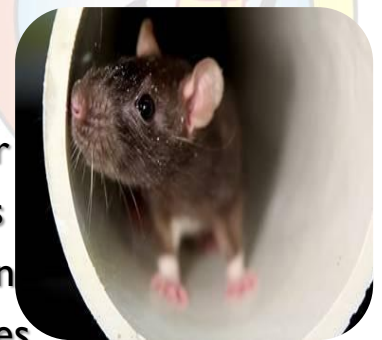

### Ants Control

Ant control can be difficult. As U.A.E leading provider of ants control our technicians have the expertise to protect homes and businesses from ants problems.

### Rodent and Mice Control

The sighting of even a single rat or mouse in your spot can mean that there is an entire family living in your basement, the walls, or in and between stored items. It is extremely serious if rats are getting into your home even if they are not entering a direct living area. Not only does this create loss in output and revenue, we also understand the high risk that this could cause fires. You will want a complete rodent elimination to occur before the rodents move to another area.

**Advanced Methods Cleaning** provides a full range of modern rodent control techniques using the latest equipment – you don't need to worry about the safety of children or pets. We ensure the rat problem is completely resolved and long-lasting.

# PEST CONTROL

## **Bed Bugs Control**

Bed bugs can infest offices, stores, hotels, airplanes, movie theaters, gyms...anywhere! They can hide in your luggage and personal belongings to hitch a ride back to your home, condo, or apartment. Once indoors, they can be extremely difficult to control without the help of an experienced and certified bed bug specialist.

**Advanced Methods Cleaning** has taken bed bug control seriously. We use the latest science and technology to test new and innovative products, so we can help protect your home with the most effective plan. Bed bugs are sneaky and hard to find, but our staff is trained to pinpoint evidence.

## **Termite Control**

Termite damage can, in severe cases and when left untreated over a long period of time, cause your property to become structurally unstable. Termites cause great losses to man.

They are known as pests of wood in houses. Not just that, they are also pests in the agriculture sector.

Prevention is the best course of action when it comes to termites and your home **Advanced Methods Cleaning** can provide annual inspections to make sure your home does not fall victim to untreated termite activity. We are specialized in pre-construction Anti-Termite & Treatment and post-construction Anti-Termite.

# PEST CONTROL

## **Bird Control**

**Advanced Methods Cleaning** believes that birds are beautiful creatures and an important part of nature, but they can also be a nuisance. When Birds Roost or nest on building ledges, signs, niches, rooftops, etc., they can turn your beautiful home or business into an unsightly and unsanitary mess by leaving droppings wherever they stay. These droppings are so acidic that they can damage equipment, clog vents, eat away at concrete, brick, mortar, or metal and as a result, reduce your property values. The damage, cleanup and maintenance costs can be very expensive.

**Advanced Methods Cleaning** offers humane bird control barriers that will effectively prevent pigeons, crows, starlings, sparrows, and seagulls from roosting. These inconspicuous and reversible barriers will protect the appearance and integrity of your home or business as well as the health of our family or employees.

## **Fumigation**

Fumigation represents one of several treatment techniques commonly used by pest management professionals. Fumigants are required to be registered and its use is controlled by local legislation because of toxic effects on humans.

**Advanced Methods Cleaning** offer a range of professional pest fumigation treatments to reduce pest infestation in compliance with the UAE health & safety regulations. We deliver practical fumigation services to protect your business, which covers: shipping & cargo, manufacturing, warehousing, milling, agriculture and more

# FLOOR, TILES AND MARBLE CLEANING, GRINDING AND POLISHING

## TILES CLEANING

**Advanced Methods Cleaning** can restore your tiled and grouted areas, with variety of options, the most popular of which is steam cleaning to remove stains and color from deep within the grout. Our steam cleaning equipment leaves no residue marks and is very environmental friendly. A growing number of clients in UAE are enjoying the benefits of using our method of deep cleaning. We haven't met many people who enjoy cleaning tile floors, and even for those diligent enough to hurt their backs, knees and elbows, regular household cleaners - including those specially formulated for tile and grout cleaning - simply aren't strong enough to do as good a job as true professionals can. Our staff are fully trained in the latest technology and techniques available for tiles cleaning and restoration.

# FLOOR, TILES AND MARBLE CLEANING, GRINDING AND POLISHING

## **Marble and Floor grinding**

Marble grinding is most powerful and dynamic process and allows us to provide a variety of different finishes – deep hone, hone, semi-shine and shine finishes. This task typically involved in the first step of surface restoration.

Grinding down the surface will smooth out the imperfections and open a new layer of marble upon which will possible to build a high quality hone or shine finish.

Grinding will remove deep scratches or stains that can be on surface, it will remove the lip page which is the term used for the uneven tiles that are installed on the floor. The unevenness is possible due to the normal installation, so even perfectly installed floor can have it.

## **Marble Polishing**

Marble floor polishing is the process by which existing or new marble floors are ground down using diamond pad grinders to achieve a smooth and resilient finish. The number of passes with different grits of diamond pads determines the level of reflectivity.

The reflective property of a polished marble floor increases lighting. Increased ambient lighting will reduce the energy bill as well as look beautiful.
